INTRODUCTION

EPIC MEME-UTILITY TOKEN ON OCTASPACE

OctaDoge, the groundbreaking, community-driven, charity-focused, and absolutely dogetastic meme on the Octa Blockchain.

We're here to claim our title as the "DOGECOIN" of OctaSpace, making our mark as the ultimate meme mascot in this fantastic space.

Inspired by the pawsomeness of Dogecoin, OctaDoge is ready to take a bite out of the charity scene by joining initiatives like dog rescue, making the world a better place for our four-legged friends. Our mission? To bring joy, excitement, and a sense of purpose to the incredible OCTA community. Let's make it a wooftastic adventure together!

\$OCTADODGE TOKEN

OctaDoge is a deflationary token on OctaSpace. The max supply is 100 million and the key functionality is its built-in liquidity acquisition & burn mechanism.

TOKENOMICS

OCTADOGE employs 2 simple functions: LP acquisition + Burns. In each trade (sells), the transaction is charged a 1% fee, which is split in 2 ways.

💰 0.5% is dedicated to providing liquidity, strengthening our trading capabilities.

🔥 0.5% is committed to a deflationary burn, reducing the total supply and adding scarcity.

Our tokenomics are meticulously engineered to enhance market performance and reward our dedicated community. Together, we'll reach for the moon! 🌕🚀
